

USHUAIA

Your language service partner for Latin America and the World!

With **more than 21 years in the language services industry**, Ushuaia Solutions can help address your linguistic, technical, marketing and cultural needs and offer an efficient and optimized translation and localization solution.

We offer the flexibility and scalability you need. Our logistic expertise enables us to build scalable client teams with linguists experienced in your content types and required tools. We can meet your needs and adapt to any technology, platform or process you already use and we will help you find the most efficient formats and processes to localize your source materials if so required.

We provide all necessary services along the way, from file processing and content parsing to subbing, MTPE, audio and video, DTP, voice-recording and testing services.

Ushuaia's main strength has always been based upon **forming long-term partnerships with our clients**. This enables both parties to invest in the ongoing development of global communication processes. And this kind of partnership allows Ushuaia to create teams of dedicated, experienced, full-time professionals to help you face and solve your global challenges.
