Translation

- Engineering and design documentation
- Industrial standards
- Regulatory documentation
- Scientific articles
- Technical manuals
- Patents
- Corporate reports and presentations
- Contracts

Interpreting

- Conference (simultaneous) interpreting
- Remote interpretation; teleconferences (Zoom, Skype, other)
- New technology presentations
- Industrial equipment installation
- Engineering meetings
- Hazards and operability studies
- Site inspections
- Training, workshops, seminars

Areas of specialization

- Engineering and design
- Oil and gas exploration and production; petroleum reserves
- Petroleum refining and petrochemistry, chemical technology
- Power engineering
- Construction
- Project management
- Procurement
- Instrumentation
- Sustainable development
- HSE
- Cryogenics
- Machinery (compressors, pumps, drilling rigs, etc.)
- Fire safety
- Intellectual property

Strengths

- Technical background
- Thorough technical knowledge
- Experience in inventing confirmed by a granted patent
- 20+ years of experience
- Attention to detail
- Experience in training other translators
- Continuous learning
- Research skills: complex technical subjects

Education and training

1986 – 1992 Faculty of Physics, Moscow State University
