

# Worldlink Technologies, Inc

## > Language Services Provider

### Who are we:

Based in Washington State, WorldLink Technologies Inc., a subsidiary of n-Link Corporation, is a multi-disciplinary experienced firm that has been providing Language Services to nationwide and worldwide clients, small to large commercial corporations and government in over 80 languages since 1973.

### Translation:

Clients' project requirements are carefully matched with the technical and subject matter expertise of our qualified and experienced translators, based in the US and overseas. The combination of the latest translation tools and the proofreading, editing and desktop publishing processes ensure cost effectiveness, accuracy and consistency in the target language.

• Legal • Medical • Government • Science • Engineering • Technology • Business • Financial • Contracts and Patents • Marketing Materials • Brochures • Flyers • Manuals • Articles • Books • Manuscripts • Transcriptions

### Localization:

Simple text strings or entire scripts with extensive graphical menus translation, coupled with leveraging technology and a strict review process ensure the localizer's efficiency and consistency, and generate the highest quality and cost control.
