English - Hindi Translator

Experience: 12+ years /Age: 42 /over 1 million words in translation / editing / proofreading.

Some of the major works I have done in the recent past are as follows:

Training manuals regarding vehicle maintenance.

Amazon EuropeCore localization project.

Translation of content related to *Transcendental Meditation*.

E-education - project comprised translating course material for children of Class 3 - 12.

Legal certificate, Office orders.

Snapchat localization project.

Translated *Govt. Acts/Bills* for a prominent website.

Hi, my name is Abhinav and I live in Rishikesh, India. In 2004 I completed my Masters in Computer Application (MCA). I work as a full time freelance translator/editor/proofreader. My language pair is English to Hindi. I have been associated with this profession since 2009. As a translator I have had the opportunity to learn a lot. My profession has taught me about the nuances of languages. I have translated documents for many fields ranging from technical manuals, religious texts, financial documents, press releases, banners, brochures to magazines, user interface (software) and websites. For Hindi translations I use Mangal (Unicode) and KrutiDev (ANSI) fonts. I have 24x7 broadband internet connection at my work place.

I have always strived to satisfy my client's requirements. Working under deadlines is my top priority. I can safely say that my clients have been satisfied with my work.

Language proficiency   English, Hindi
