About me:

Some of my interests are: Ads, graphic design, languages, arts and crafts, food and cooking, home, fashion, kids, animals, law, internet, movies, music, travels, spirituals.

I'm creative with skills for writing, designing and making totally new things with a very personal and simple way of expression. Never afraid to work hard, and knowing working is not suffering, I always enjoy my tasks. With high sense of honesty and responsibility, never pass over the deadline -yes, things delivered in a shiny good time- and with very good quality too.

It will be a pleasure to work with you.
