PERSONAL DETAILS

My hobbies include walking my rescue hound, biking in the summer and skiing or skating in the winter, working out with Pilates and Astanga Yoga, traveling abroad to see my many foreign friends, writing short stories and reading books, magazines and blogs in English and in Finnish.

In my high school matriculation exams I reached 6 Laudatur Levels (there are 7 grades, whereof Laudatur is the highest and achieved by 5% of students); in Finnish, English, Swedish, French, Mathematics and Technical Sciences. I have also studied basics of Italian in the University, as well as having passed the bilingual tests Finnish-Swedish. I have worked in Spain and Jordan, and lived and worked in Australia for about 5 years.

I am a fluent and confident writer and editor in Finnish and in English, as I do understand the nuances of language and expressions. I keep a blog in English.

Working abroad during many years and also leading a major international design project in Chile has further widened my vocabulary and understanding especially in architecture, construction, technical issues and design. I follow fashion, lifestyle, movies, literature, wellbeing and interior design with passion, and therefore I also feel in ease with related tasks like online shopping, marketing, cinema, surveys and blogging.

I also handle computer and gadget terminology, and can operate Office and XTM- and similar software. Currently a work as an architectural designer - but also as a freelance translator (English-Finnish-English and Swedish-Finnish) and proofreader (Finnish) for Copypanthers, ComTranslations and Translia, and as a branchecker for Brand Checkers. I also write SEO texts in Finnish for Copypanthers and movie and trailer subtitles for ComTranslations in Finnish and in English. From these companies I have received excellent feedback and continuous assignments.
