EMPLOYMENT HISTORY

Marine Electrician- Senior Appointment

May 2013 – Present

Royal Canadian Navy, Victoria, BC, Canada

I'm currently serving as senior electrician on a minor warfare vessel. I ensure all electrical systems are in good working condition. I liaised with all other ship departments to rectify all electrical/electronic deficiencies if needed. I provide leadership to my subordinates and mentor them to help them become better leaders.

Major Accomplishments

- Participated in several joint exercises with the US Coast guard and the US Navy to protect territorial waters on the West Coast.
- Dispatched subordinates on assignments and career courses for good trade progression. Had to write several reports promoting deserving members to carry on future tasks and duties.

Marine Electrician- Electrical Supervisor

March 2013 – May 2013

Royal Canadian Navy, Victoria, BC, Canada

I served as an Integrated Machinery Control System (IMCS) technician for Fleet Maintenance Facility Cape Breton.

Major Accomplishment

- Conducted several Planned Maintenance onboard major war vessels to maintain in good working condition ancillary, propulsion and electrical systems.
- Prepared several technical reports on the states of the equipment based on data gathering during the observation phase of the Planned Maintenance.
- Was the immediate supervisor of four subordinates and coach them to write as per the military writing guide.

Marine Electrician- TDC SIROCO

September 2012 – March 2013

Marine Nationale, Toulon, France

I worked as an electrical supervisor onboard a French amphibious ship to support OP REGULUS..

Major Accomplishment

nitramduahcim@yahoo.ca

Martin Michaud

-
- While fluently conversing in French, I supervised 10 marine electricians of the section I was in charge of to not only maintaining electrical systems onboard, but also to ensure electricity was supplied to the ship's systems constantly.
 - Was a manager supporting my section during the many exercises we were participating to by writing several reports to the Commanding Officer about the electrical state of the ship.
 - Produced several reports to the Canadian Government to support OP REGULUS.

Martin Michaud

Marine Electrician- RAS Deck Electrician

June 2011 – September 2012

Royal Canadian Navy, Victoria, BC, Canada

I worked in a supervisory position onboard a oiler as senior Replenishment At Sea (RAS) supervisor.

Major Accomplishment

- Fight war against Illegal Substances in the Pacific Ocean.
- Ensure the proper operation of electrical systems pertaining to the RAS Deck section.
- Wrote several letters promoting my candidacy for OP REGULUS, France.

Marine Electrician- Student

May 2012 – June 2012

Royal Canadian Navy, Victoria, BC, Canada

Obtained trade Qualification Level 6B

Major Accomplishment

- Obtained qualification to become a senior manager onboard a major war vessel.

Marine Electrician- IMCS Technician

June 2010 – June 2012

Royal Canadian Navy, Victoria, BC, Canada

I worked in a technical position as an Integrated Machinery Control System technician on a major warfare vessel.

Major Accomplishment

- Participated in the Royal Canadian Navy centennial, the Chilean country's bi-centennial.
- Besides the several operations I participated to, I was responsible of all data entry for all control and machinery system onboard and of producing several Periodic Engineering Letters (PEL), numerous reports on the working and non-working state of the control equipments.
- Re-wrote several articles on electrical and electronic systems for the purpose to ease introduction of systems to newly embarked personnel.

CAD Programmer College- Student

June 2010 – June 2011

SAIT College, Calgary, AB, Canada

I learned to use AutoCAD to perfect training Aid for the royal Canadian Navy.

Major Accomplishment

- Wrote a new Lesson Plan for the electrical Section of the Royal Canadian Navy.
- Implemented the new training aid to untrained instructors.
- Wrote new procedures to facilitate teaching in a military environment.

Marine Electrician- Electrical Instructor

June 2007 – June 2010

Royal Canadian Navy, Victoria, BC, Canada

I taught several electrical, mechanics, time evaluation software, mathematic courses in both Canadian official languages.

Major Accomplishment

- Wrote course reports and was the main administrator of the several courses I taught over the two year period.
- I was responsible of all data entry for all control and machinery system onboard and of producing several Periodic Engineering Letters (PEL), numerous reports on the working and non-working state of the control equipments.
- Re-wrote several articles on electrical and electronic systems for the purpose to ease introduction of systems to newly embarked personnel.

Marine Electrician- Student

Jan 2007 – June 2007

Royal Canadian Navy, Victoria, BC, Canada

I was certified at the trade Qualification Level 6A from the royal Canadian Navy Fleet School

Major Accomplishment

- Obtained article and report writing accreditation.
- Obtained electrical degree.

Marine Electrician- RAS Deck Electrician

June 2005 – Jan 2007

Royal Canadian Navy, Victoria, BC, Canada

I worked in a supervisory position onboard an oiler as senior Replenishment At Sea (RAS) supervisor.

Major Accomplishment

- Fight war against terrorism.
- Ensure the proper operation of electrical systems pertaining to the RAS Deck section.
- Maintain adequate report on subordinates in the form of notes.

Martin Michaud
