Past & Present

I took a year hiatus junior year at university to live with a family, work in a tea shop and study in China. I was once forced onto TV, speaking in the local dialect about the local food. It was utterly embarrassing. I thoroughly enjoy Chinese, and any language as they compare in syntax, vocabulary and expression. I've previously interpreted for a printing company, Ivie out of Flower Mount, Texas, for their visiting Shanghai manager.

Currently, I'm traveling along the east coast of the US, working on independent projects, programming, reading, writing, surfing and seeing the country.
