ADDITIONAL INFO

HOBBIES & OTHER INTERESTS

I enjoy and feel passionate about socializing, writing, teaching, translating, and learning. My interests are languages, history, spirituality, psychology, and animals.

I have **written four (4) Books** that are available on Amazon. These Books are: **1. Media & Political Participation, 2. Historical and Modern-day Colombia, 3. An Every Person's Guide to Meditation, 4. The History and Development of Video Games.** During my studies at the University I have been a mentor of a group of first year students and helped organizing activities for Bachelor and Master students.

I'm a responsible and open-minded person that likes to learn about new things and works in a disciplined manner. I like to improve myself in all sorts of ways and like spending time reading about psychology and spirituality. If my schedule allows me I like to go to social and language exchange meetings where I can meet new people and help them with languages or any other knowledge I have.
