With a bachelor's degree in translation, I would like to apply the knowledge I have acquired during my academic career. My studies gave me the necessary tools to meet the linguistic challenges that are common in a translator's life. I have a thirst for learning which could be of use to any company wishing to work with a junior translator.

SKILLS

- Fluency in French and English (intermediate level in Korean).
- Translating from English to French withing the meaning of the source text.
- In-depth understanding of the different principles that govern the world of translation.
- Ability to adapt to new environments.
- Strong teamwork skills.
- Working under pressure and meeting tight deadlines.
- Knowledge of the SDL Trados, Logiterm and Passolo softwares.

Translation fields: government, ecology, tourism, social sciences.
