---

### EXPERIENCE ( LAST 3 )

Paypal  
Oct 2021 - Present

● **Software developer (CW)**

Currently working for Paypal payment checkout team (WEB), for this project there are several applications, the legacy APP was built with Angular 1.5 + Nodejs, only for contingency.

The Guest payment APP called Weasley, is SSR Reactjs + Nodejs + Apollo GraphQL app.

Tech Stack: React, GraphQL, AngularJs, NodeJs, Docker  
Referencer: Naomi Saltis, Stephen Westhafer

JP Morgan  
Aug 2021 - Oct 2021

● **Associate developer**

This project is a IOT project. JP Morgan plan to convert its offices to intelligent buildings, control and monitoring all cameras, gates even air-conditioners.

For this project I'm doing user-interface.

Tech Stack: React, Nodejs, .NET  
Referencer: Matt Murphy, Eapen John

Boehringer Ingelheim  
Oct 2019 - Aug 2021

● **Software developer**

Boehringer Ingelheim planed to develop their own CMS for it's all subsidiaries and own pharmacies.

Tech Stack: PHP, Laravel, Nodejs, MySQL  
Referencer: Georgiy Strashko, Christian SalazarView
