global scale**

Terratra OÜ

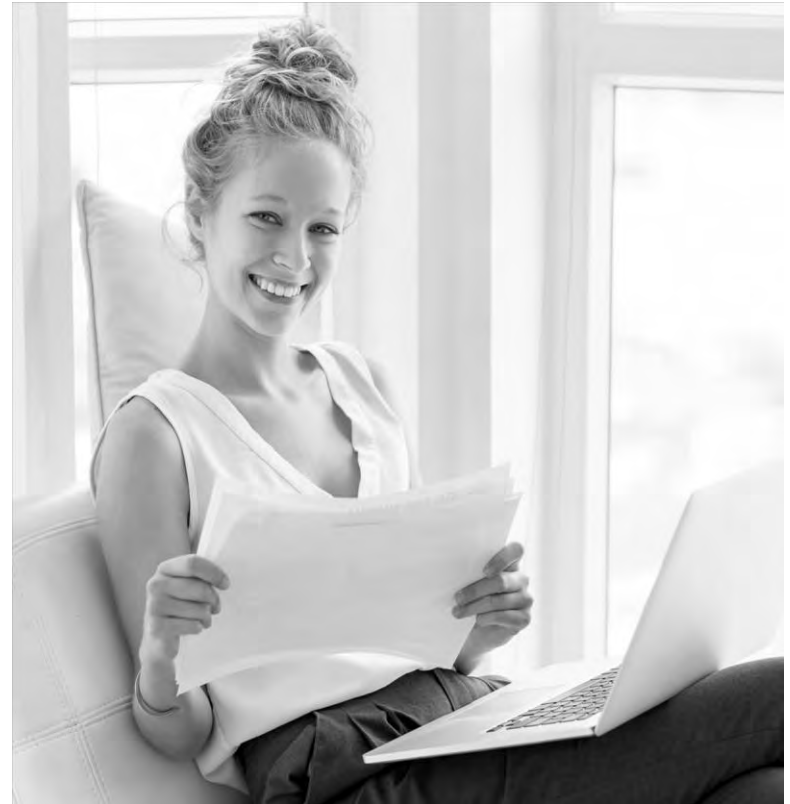

# Did you know?

---

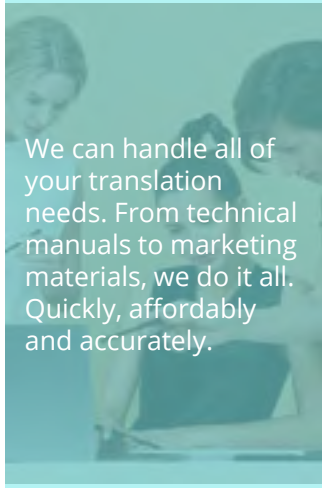

Consumers are far more likely to purchase a product when they are able to interact with the product or service in their native language. At TERRATRA, we can localise your translation into over 100 languages. Sit back and relax while we take care of reaching your global audience in their native language with our professional translation services.

Here at TERRATRA, we ensure that only qualified and experienced linguists carry out your translation project. Our commitment to your project means that we will never miss a deadline.

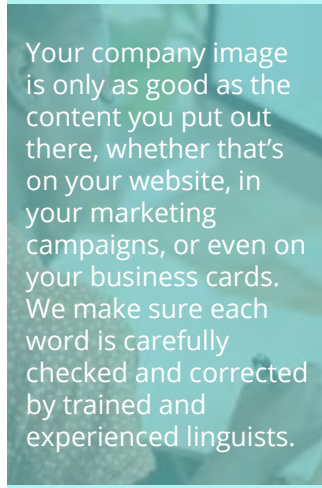

We work with native linguists who are qualified to translate any material in any industry. Together, we can create the perfect content for you and your customers.

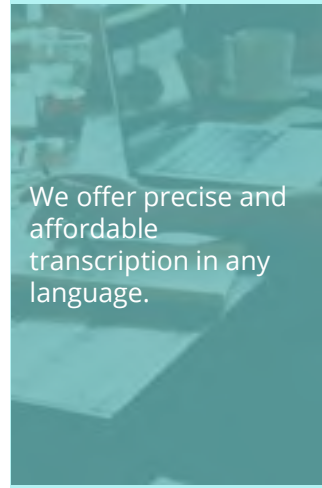

# Services We Provide

Interpreting services can make or break your event, from international conferences to personal events. If you need a professional interpreter in any language, contact us for a free quote.

## Interpreting

At TERRATRA we offer a wide range of voice-over services in any language for all purposes. From company promotional videos to video games and radio broadcasts, we cover it all. Choose from hundreds of voice-over artists and make any video sound natural in the target language.

## Voice Over

Localising texts can help any business break into new markets with ease. Avoid any sticky situations resulting from unnecessary language or cultural barriers.

## Localisation

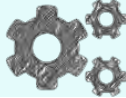

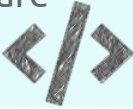

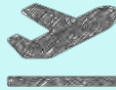

We work with top DTP specialists and graphic designers to make any translation ready for the market. The latest innovations in technology allow us to complete any DTP task, no matter the complexity or language.

# We recommend a three step translation process

---

## Translation

We provide professional translation services into all European languages, as well as Asian, Scandinavian, and African languages

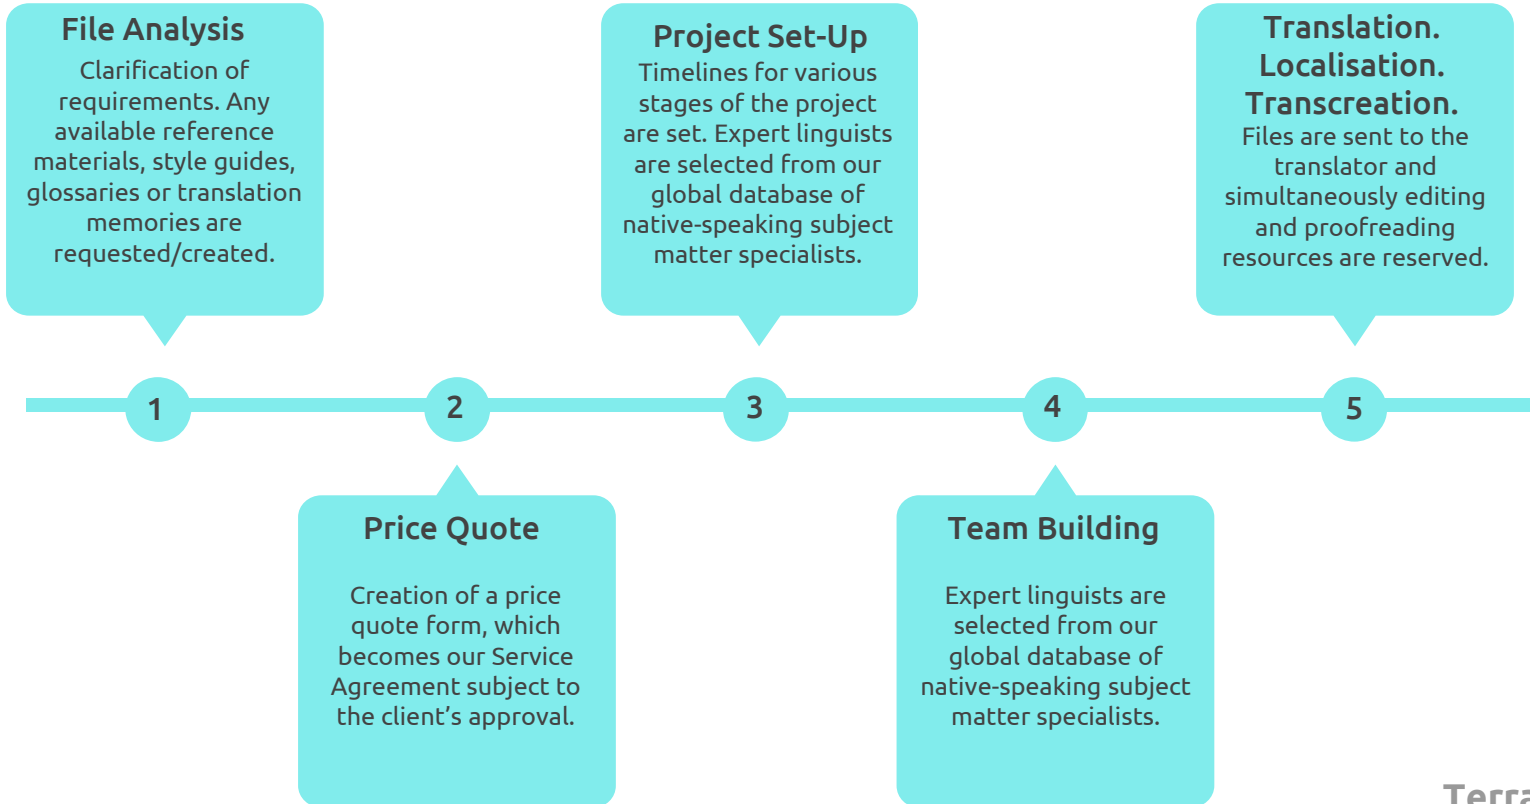

## Editing

Linguists, along with our internal QA team, will double-check the translation to ensure the text reads properly, the layout flows well, and the chain of thought is logical and well organised. Correct and appropriate terminology must be used throughout the text.

## Proofreading

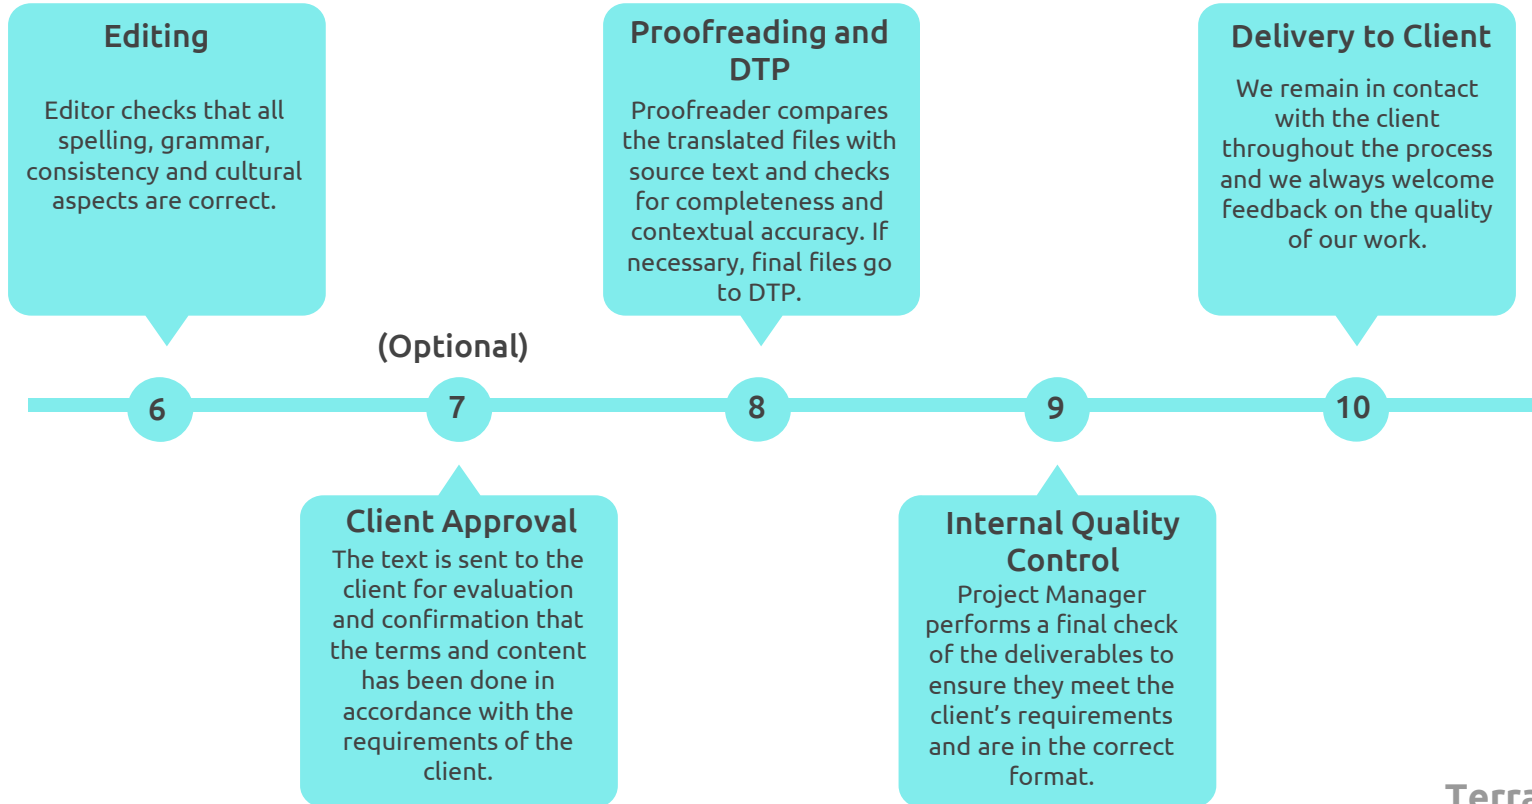

Proofreading is the last step in the revision process, it focuses on human error and typos such as spelling and grammar mistakes and incorrect use of punctuation. Moreover, proofreader check final file on consistency and making sure that correct terminology is used across the whole file.
