## TRANSLATOR

### ABOUT ME

I get passionate about languages very young but I couldn't put a name on the job I wanted until I watched the movie The Interpreter in 2005, well in real life there is not that much action, but still it's a great profession

I had the chance to travel a lot thanks to my previous job and I am not over discovering the world and its cultures yet

I work mainly as a freelancer because it allows me to learn as much as I can about different areas

My next goal would be to add two new languages to my skills: Russian and Chinese
