Experience

2012 - 2014

Freelance /university TENAGA National (UNITEN), in Malaysia

- Eight years ago, I started my journey to learn how to speak English, and now I'm using my skills to help you spread your idea or service to Arabic speakers.
- Being there has helped me build a strong foundation, and now I can understand the meaning of the sentences you provide and write them in simple terms.
- My roommate doesn't speak Arabic, so I had to converse with him in English only.
- During my time of residency, I was the translator for the landlady where I lived back then. If any Arab students had a problem, I was happy to help.

2014 - 2020

My translation journey

- I have translated many self-help books For my own development in order to learn and increase my knowledge.
- I have listened to many audible books that entailed more than 3 hours a day.
- I watch movies constantly and translate any unknown words and phrases, which help me perform better in relation to subtitling and translating.
- I have watched and learned from The Udeemy courses and had obtained 39 certificates.

education

2012-2014

Electrical Power Engineering / TENAGA, Malaysia

In Malaysia, I have met good friends who encouraged me to work harder to learn English. Since then, I have begun my journey to learn and grow further.

2015-2017

Diploma in Civil Engineer / Althager Institute in Jeddah

during this period, I used to listen to a lot of audible books in my car for 3 hours while driving back and forth; and throughout that time, my listening skills has enhanced significantly.

Activities

From 2012 till today, I have worked my hardest to learn both languages and understand them the way I do now. Of course, it took me years to obtain that level of knowledge, and now I am confident in my ability to help you with your translation.
