

Be Local, Go Global

Proposal for Localization Services

WHO WE ARE

VerboLabs is an energetic language solutions company. In the last 3.5 years, we have localized over 20 million words for over 80 clients, in 50 major global languages.

We have a large pool of over 1000 professional localization experts. Our two levels of quality assurance and advanced technology allow us to deliver the best localized content faster and easier.

Above all, we deliver exactly what our client demands. Quality work!

WHAT DO WE OFFER

LOCALIZATION SERVICES

We don't just translate content but make sure that it's easy to understand for your target audience. Some jokes may seem very funny to a person in the US but a person living in India might not be able to relate to it. So, we offer alternative content that could be used in that place.

We ensure that the message or information is conveyed in the most effective way with the help of our professional linguists working in multiple languages.
