Japanese/French into English

### Profile

Just graduated with a bachelor's degree in Japanese studies, I'm currently on the lookout for opportunities ! My mother's tongue is french but part of my family being english, I was able to benefit at a young age from a broader knowledge of the language and culture.

Other than my student's status, I'm also an employee in a Japanese company named WAIZ and I have recently decided to start my activity as a freelance translator.
