## Cover Letter

---

Dear Hiring Manager,

I am excited to apply for the position of video translator and would like to express my interest in joining your company.

As a third-year English-Korean translator with experience in translating various types of videos, including OTT and theatrical releases, I am confident that I have the skills and experience necessary to excel in this role.

After graduating from high school in the United States and completing my university studies in Korea, I worked as a manager for an overseas sales team before transitioning into full-time translation work. In addition to my English-Korean translation skills, I have also studied French and Japanese, and I have experience as an exchange student in those countries, which has given me a deep appreciation for various languages and cultures. Having traveled to more than 20 countries around the world, I have a keen interest in different languages and cultures, which has fostered my love for translating videos.

I find joy in experiencing the magic of language while converting it into Korean. I approach each project with a positive attitude and a professional work ethic, and I am always available to communicate and work around the clock to meet tight deadlines.

Thank you for considering my application. I look forward to the opportunity to discuss my qualifications further and to contribute my skills to your company.

Sincerely,  
Yesol Kim
