### PROFILE

Efficient and punctual, thanks to my German roots I had the opportunity not only to grow up in a bilingual family, but also to live in Germany where, in addition to studying both Hispanic Philology and Anthropology, I worked for more than fifteen years monitoring, analyzing and translating texts, journalists and technicians from German to Spanish coming mainly from the automotive sector (several sectors).

As a philologist and anthropologist, my interest also lies largely in the reading and translation of literary, linguistic and cultural texts in general.
