- commissioning

## SOFTWARE SKILLS

- Autocad
- Sm solver,
- Microsoft office
- Microsoft Excel

## PROFILE

I'm a Civil Engineering graduate from Yangtze University China, with working experience of 2.3 years as a Safety Inspector at a nuclear power plant in Karachi, followed by 1.5 years as an Operational Engineer at Engro Powergen Company. Seeking exciting opportunities abroad to expand expertise and contribute to meaningful projects. Let's sculpt a world of progress and safety together!

## WORK EXPERIENCE

### OPERATION ENGINEER

**COMPANY NAME:** ENGRO POWERGEN THAR LIMITED (COAL POWER PLANT)

**Duration:** April 2022 To present

- Facilitate effective communication between Chinese and Engro personnel through English-to-Chinese interpretation.
- Record meeting minutes and take note of defects and observations from plant activity discussions.
- Monitor daily routine maintenance activities and promptly inform supervisors for proper oversight.
- Ensure accurate documentation and proper PPE usage while checking work permits in the main Control Room.
- Verify isolation procedures to ensure adherence to safety protocols.
- Compile evening reports on plant updates and unrectified defect, forward to leaders.
- Provide hourly load updates in WhatsApp groups and ensure compliance with operation protocols.
- Handle outages and plant tripping processes with a strong focus on safety and sync the Unit.
- Assist during A-Type shutdowns after 5 years of operation by conducting safety site checks and proper isolation verifications.

### SAFETY INSPECTOR

**COMPANY NAME:** CHINA NUCLEAR POWER ENGINEERING (CNPE)

**Duration:** Oct 2019 To Dec 2021

- Conducting safety inspections to identify hazards and ensure compliance with regulations.
- Enforcing safety protocols and promoting a strong safety culture among personnel.
- Investigating incidents and implementing preventive measures.
- Providing safety training and raising awareness about risks.
- Accurately documenting safety inspections and incident reports

### SITE ENGINEER

**COMPANY NAME:** HITCHSON PORT KEMARI KARACHI

**Duration:** 01-04-2019 To 01-09-2019

- Overseeing construction projects.
- Assisting in civil engineering project design and development.
- Conducting inspections and ensuring safety compliance.
- Collaborating with teams to overcome challenges.
- Providing Chinese-to-English interpretation for laborers.
- Conducting site visits for construction progress and quality control.
- Combining technical expertise with effective communication for project success and safety.

### CHINESE TRANSLATOR

**COMPANY NAME:** HITCHSON PORT,CNPE , ENGRO POWERGEN

**Duration:** 01-04-2019 To Present

- Specializing in accurately translating technical Chinese vocabulary in fields like Civil Engineering, Site Engineering, Safety Inspection, and Operation Engineering at coal power plants.
- Facilitating effective communication between companies' personnel,
- during meetings, negotiations, and deal-making processes through translation expertise.
- Providing on-the-spot interpretation services to ensure smooth and accurate communication between English and Chinese-speaking participants in meetings.
- Crafting detailed meeting minutes in both Chinese and English, capturing essential discussions, decisions, and action items.
- Conducting monthly audits at the plant and delivering comprehensive reports in both Chinese and English to enhance operational efficiency & projects across diverse fields.
