

ANDRÉ SILVA

DEGREE IN
BIOTECHNOLOGY

ABOUT ME

I am an enthusiastic student, especially in practical science components. Degree in Biotechnology, a course that allowed me to learn and practice various techniques in Biology and Genetic Engineering, among other areas.

MAIN GOAL

At the moment, my main goal is to get jobs as a freelance translator, of english-portuguese and portuguese-english.. I also want to level up my level of fluency in speaking english, since i'm not a professional translator.. I also can do subtitles and transcription.
