■ Company Profile

Established in 2003, KurdGlobal enjoys a very experienced team of in-house translators, computer professionals, and project managers and is dedicated to offer quality localization and globalization services to different industries in the Middle East market. Our business involves providing services between the major European business languages and Middle Eastern languages. Our translators are native in the target language(s) of their specialty and highly experienced in translating from and into the European languages. They are capable of translating different materials with assured quality. For more details see our website at www.kurdglobal.com.
