

## BACKGROUND

- My name is Jens Christensen and I work as a freelance translator, copywriter and project manager. I can and will deliver punctual and professional translations and localizations from **English, Swedish and Norwegian to Danish**.
  
- In 2005 I finished my Master's Degree at the University of Aarhus, where I have studied English, Information Technology and Organizational Analysis. As part of my studies I spent 6 months in USA as a student at Michigan State University. Furthermore, I spent 2006 and part of 2007 working as a project manager at the translation agency Alfa & Omega (now Amesto). I have since completed **more than one thousand projects as a freelance translator**.
  
- My education and experience enable me to translate and manipulate a wide variety of texts and genres, including, but not limited to, technical manuals and user guides, entertainment such as fiction, movies and games, websites and texts related to IT, works of academia and reports as well as projects within the field of PR, marketing and advertising. I have translated user guides, technical specifications, marketing texts and other material for companies such as **Microsoft, HP, Google, Nintendo, Sony, Danfoss and more**.
  
- My background as a Project Manager means that I have experience dealing with all the phases of a given project. This, combined with modern technology and a "knack" for translation, is how I can deliver **the right words - every time!**

## TOOLS

- PC hardware:  
Intel i5, 16 GB RAM, 1 TB HDD, SSD
  
- Software:  
Microsoft Office 2007  
Trados Freelance, Trados Studio  
Trados Multiterm, Trados TagEditor  
Various electronic dictionaries and other applications
  
- Additional info:  
Trados is my primary translation tool, but I am of course willing to use other tools if needed, and have done so many times. I have experience maintaining translation memories and working with clean / segmented files.
