I am a native Russian and English speaker having spent my childhood in Russia, but subsequently completed my education and worked in the UK over the past 18 years. I have extensive work experience across a variety of domestic and international public and private sector organisations. I have carried out translation and interpreting on a part time freelance basis for over 10 years alongside using those skills as part of my formal employment and achieving a postgraduate qualification from a Russell Group University. I have dedicated the past year to my translation career and have undertaken further study for the IOL DPSI Law exams. I am now looking to offer my services to agencies and build long lasting and mutually beneficial working relationships.

I currently specialise in the following areas:

Business

Law

Heavy Industry

Academic texts

Tourism

Yachting

Equestrian/Veterinary

Social Sciences
