About Me

My first job after graduation was with Lufthansa German Airlines.

That was when I fell in love with Argentina. I packed my bags and went to live and work there.

Buenos Aires is amazing and I am glad I had the chance to experience the life on a different continent. I even learned to paraglide!

I love my dog, a Romanian stray named Vincent. He is my office partner and furry hot water bottle on cold German winter mornings. He inspired me to volunteer in many ways to support a British organisation
